

March 13, 1989

To: The administration of Sarah Lawrence College.

We, the Environmental Group, support the initiative for action established by Harambe and The Concerned Students of Color. Their demands reflect our own concerns.

The same structures of ignorance and violence that perpetuate racism, sexism, and homophobia encourage the continued degradation of the Earth's natural systems.

We thank both Harambe and The Concerned Students of Color for all they have given the campus community.
