

THE TRUSTEES MUST SUSPEND A TUITION RAISE

- A. Immediate problems caused by raise
 - 1) Inhibits co-education; boys will go to a cheaper college
 - 2) Squeezes out middle income student, no diversity
 - 3) Too expensive for anyone!
 - 4) Very late date for students who will no longer be able to afford it here to transfer
- B. The raise is, as the President said, only a "band-aid" measure
 - 1) Will leave us with same problems next year
 - 2) Inhibits urgency of finding long-range solutions--financial and academic--that must be put into effect now
- C. Students already carry most of the burden of the college
 - 1) Tuition fee is 55% of total school budget
 - 2) Room and board fee is 21%
(facts taken from pamphlet sent to alumnae)
- * D. There are structural changes that can eliminate the raise
 - 1) Seminar proposals
 - a) Trinkaus proposal (1/23 Trinkaus-Lindstrom-Leach)
 - b) Trimester proposal
 - c) Diversity proposal (private/public funds)
 - 2) Others, e.g. Wachs-Cogan
 - 3) Grant-funded courses, e.g. existing education course
 - 4) Co-operative student work
 - 5) Budget savings
- E. Many of these proposals have been around, but the trustees have not acted upon them. We must use the urgency of our crisis to crystallize and activate the programs now.
- F. Related questions
 - 1) Release small portion of endowment capital
 - 2) Alumnae do not realize our crisis
 - 3) The administration has said in fact the college will not go bankrupt if there is no tuition raise

WE MUST UNITE OUR IDEAS WITH THE FACULTY AND
